

### REMARKS

This application is a divisional application of U.S. Patent Application Serial No. 10/323,525. Claims 39, 43, and 45 are amended. Claims 1-38 and 44 are cancelled. Claims 46-60 are added. Claims 39-43 and 45-60 are in the application for consideration.

The claims are amended and presented herein to remove the requirement to the substrate having a mean global outer surface, and to remove the limitation to certain portions being parallel with such surface. Such removed requirements were deemed acceptable in the immediate parent application. The claims herein are otherwise of analogous scope to the claims in the U.S. patent application which became U.S. Patent No. 6,509,626 B2. A Terminal Disclaimer relative to the 6,509,626 B2 patent is provided herewith.

This application is believed to be in immediate condition for allowance, and action to that end is requested.

Respectfully submitted,
